Cisne Blue Tag**

Cisne Blue Tag

Characteristics

Food grade salt, with added iodine and anti-humectant, intended for a variety of applications, mainly for use in food production. It can also be used in non-food applications as a chemical agent in cleaning and personal care products.

Technical Specification

Description	Unit.	Specification
Sodium chloride	%	Min. 99,30
Iodine (Metalloid)	mg/kg	Min. 15,0 Max. 45,0
Moisture	%	Max. 0,3
Calcium	%	Max. 0,30
Magnesium	%	Max. 0,100
Sulfates	%	Max. 0,200
Insoluble	%	Max. 0,005
pH	-	6,5 to 10,5
Sodium Ferrocyanide	mg/kg	Min. 2,0 Max. 5,0
Silicon dioxide	%	Free

Applications and presentation

- Abrasive for polishing marble and granite
- Doughs in general
- Condiments and sauces
- Vehicle for flavors and dyes
- Baking

Cisne Blue Tag

Product	Standard Packaging	Palletization
Cisne Blue Tag Iodinated Salt	Polyethylene bags 25Kg	49x25kg= 1,225kg
	1000Kg Big Bags	

◆

Benefits

- Absence of organic and insoluble substances
- Produces crystalline brine
- Uniform grain size
- Free from microbiological, physical and chemical contaminants
