Cisne Salt Shaker**

Cisne Salt Shaker

Characteristics

Food grade salt, obtained through the industrial vacuum evaporation process. It is added with anti-humectants and anti-caking agents, which give the product a high flow rate.

Technical Specification

Description	Unit.	Specification
Sodium chloride	%	Min. 99,64
(#) Iodine (Metalloid)	mg/kg	Min. 15,0 Max. 45,0
Moisture	%	Max. 0,3
Calcium	%	Max. 0,020
Magnesium	%	Max. 0,060
Sulfates	%	Max. 0,120
Insoluble	%	Max. 0,005
pH	-	6,5 to 10,5
Sodium Ferrocyanide	mg/kg	2,0 to 5,0
Silicon dioxide	%	0,3 to 1,0

Applications and presentation

- Use in industrial kitchens
- Manufacture of snacks
- Production of sachets

Cisne Salt Shaker

Product	Standard Packaging	Palletization
Cisne Salt Shakers	25Kg Bags	49x25kg= 1,225kg
	1000Kg Big Bag	

◆

Benefits

- High flow and adhesion rate.
